Summary

Current Controlling Automation Lead at HelloFresh with 7+ years of experience specializing in data analysis, automation, and ETL/ELT processes. Skilled in Python, SQL, and Tableau, with a strong background in building data pipelines and streamlining operations to drive cost savings through process automation. Passionate about leveraging data to improve efficiency, optimize financial workflows, and enhance decision-making. Always eager to learn new technologies and refine problem-solving approaches.

Work Experience

HelloFresh

Irving, TX

CONTROLLING AUTOMATION LEAD

January 2026 - Present

- Built and shipped an internal AI assistant now used by 83 people across 10 departments. React front end, FastAPI back end, wired into live financial data so routine reporting questions stop queuing behind an analyst.
- Built it to extend rather than demo: agents query Snowflake and Databricks directly, and new department tools connect over MCP servers, so onboarding a team is configuration rather than a rewrite.
- Automated COGS from cost ingestion through standard-vs-actual variance and inventory-to-GL reconciliation, replacing the spreadsheet models regional teams maintained by hand.
- Rebuilt international inventory valuation in Python and SQL: FIFO and weighted-average costing, multi-currency conversion, and regional compliance rules, with exception alerting that catches breaks before close instead of during it.
- Own controlling automation across US and European markets, partnering with Accounting, FP&A, Procurement, and Supply Chain to standardize processes that had drifted market by market.

MANAGER, BUSINESS INTELLIGENCE (FINANCE)

January 2024 - January 2026

- Developed and implemented business intelligence strategies to optimize financial decision-making, leveraging Python, SQL, Tableau, and Streamlit to drive cost savings and efficiency.
- Designed and maintained ETL pipelines, automating data extraction, transformation, and loading (ETL) processes for seamless data integration and analysis across Finance.
- Created interactive dashboards in Tableau and Streamlit, integrating Amazon S3 for scalable data storage, real-time visualization, and enhanced user experience.
- Automated financial reporting, improving efficiency, accuracy, and scalability, streamlining workflows across Accounting, Financial Operations, HR, Procurement, and Operations to enhance collaboration and deliver more timely insights.
- Led data analysis, ad-hoc reporting, and strategic initiatives, collaborating with business stakeholders to deliver actionable insights, optimize data pipelines, and improve decision-making.

SENIOR DATA ANALYST (FINANCE)

April 2023 - January 2024

- Utilized Python and SQL to perform advanced financial data analysis, deriving actionable insights to inform strategic decision-making.
- Developed and maintained complex financial models to support forecasting, budgeting, and long-term strategic planning across business units.
- Created interactive Tableau dashboards to visualize financial trends and KPIs, effectively communicating insights to senior management and stakeholders.

SENIOR PLANNER

April 2022 - April 2023

- Led end-to-end labor planning and optimization for fulfillment centers, integrating input from HR, Operations, Finance, and other departments.
- Utilized Python, Google App Script, Domo, and SQL to implement tool enhancements, automate workflows, and drive efficiency across multiple business functions.
- Managed rostering for up to 2000+ employees, forecasting labor requirements for both short-term and long-term production needs across various sites.

PLANNING & MATERIALS ASSOCIATE

May 2021 - April 2022

- Developed shift plans and managed resources across multiple fulfillment centers, ensuring alignment with production goals and SLAs.
- Collaborated with HR, Operations, Logistics, and Procurement to optimize labor and material allocation, aligning with production forecasts and weekly plans.
- Maintained and troubleshoot planning tools, ensuring efficiency and data accuracy to support production teams in a high-volume environment.

Stonecrop Technologies

Garland, TX

PROJECT MANAGER

Feb. 2019 - Feb. 2021

- Led a small cell program with Nokia, managing 500 orders/month and coordinating cross-departmental efforts to meet project milestones.
- Implemented inventory management strategies across multiple facilities, achieving 99.8% inventory accuracy and reducing shrinkage to 0.25%.
- Managed insurance claims and scrap processes, overseeing the disposition of \$2.5M in assets and ensuring compliance with business and regulatory standards.

INVENTORY CONTROL MANAGER

Aug 2018 - Feb 2019

- Led Inventory Control and Reverse Logistics teams, optimizing processes and ensuring inventory accuracy across multiple sites with total value up to \$900M.
- Developed reporting tools using Excel, Access, and Tableau, enabling data-driven decision-making and improving operational efficiency.
- Mentored team members and provided root cause analysis to identify areas for process improvements and reduce inventory discrepancies.

REVERSE LOGISTICS SUPERVISOR

Nov 2016 - Aug 2018

- Developed and led the Reverse Logistics department, generating \$2.5M in additional revenue through the management of returns and disaggregation projects.
- Managed the Massive MIMO CDU30 Refurbishment and cabinet disaggregation projects, delivering cost savings and additional revenue streams for the company.
- Built and fostered vendor relationships, streamlining the telecommunications material scrapping process and contributing to project success.

MATERIAL FOLLOW-UP COORDINATOR

Oct 2015 - Nov 2016

- Monitored inventory accuracy for \$300M worth of materials, ensuring that all products met SLAs and resolving discrepancies in real-time.
- Led the implementation of Highjump WMS in the distribution center, optimizing material handling and improving operational efficiency.
- Provided support for Reverse Logistics, overseeing team operations to ensure materials were processed efficiently and within business requirements.

Certificates

Oct 2025 **Power BI Data Analyst Associate (PL-300)**, Microsoft

482D2204C18F98B1

Sep 2023 **Project Management Professional (PMP)**, Project Management Institute

3647825

Jul 2023 **Tableau Certified Data Analyst**, Tableau

Aug 2022 **ASQ Certified Six Sigma Green Belt**, American Society for Quality (ASQ)

57961222

Education

University of North Texas

Denton, Texas

M.SC. IN RECREATION, EVENT, AND SPORT MANAGEMENT

2015 - 2017

University of North Texas
